FIGURE 5

Western blot analysis showing protein expression levels across eight melanoma cell lines (A375, 624mel, 1300mel, 397mel, SKOV3, SKBR3, CRL5803, and RCC1257) under 'Pre-vaccination' conditions. A white arrow points to a band in the 1300mel lane.

melanoma

A375	624mel	1300mel	397mel	SKOV3	SKBR3	CRL-5803	RCC-1257

Post-vaccination
